# PHC Ferrargunj in a Bad State; Patients Shifted to Homes amid Water Seepage Inside Wards

[READ STORY ON WEBSITE](#)

[Tarun Karthick](#)

Port Blair, 9 October 2021

Primary Health Centre, Ferrargunj is said to be in a bad state these days. It has been reported that the patients from the PHC had to be shifted to their respective homes on 8th October 2021 because of the seepage of water inside the wards at PHC Ferrargunj.

The water reportedly entered the wards through the broken windows and the leaking roof and the condition was said to be so bad that it seemed that the hospital was flooded.

It is being said that keeping in view the discomfort of being faced by the patients the hospital authorities shifted the in-patients to their homes using the ambulance.

Mr. Sunil Kumar, Ex-Pradhan of Ferrargunj spoke to Nicobar Times on the issue and informed that the condition of PHC Ferrargunj was never so bad. He added that the hospital authorities have informed him that they have requested the repairs to the building, but nothing has been done so far.

Mr. Sunil also informed that apart from the broken fixtures, the toilets of PHC Ferrargunj is in very bad shape, he added that the toilet is not cleaned properly and the patients are suffering because of it. Mr. Sunil said that he visited the male ward toilet and was surprised to see that the hospital toilet was filthy.

Mr. Sunil also informed that he has sent the videos of PHC Ferrargunj to the senior officers of the Health Department.

It is very important that the building of PHCs are maintained properly so that the already suffering patients do not have to suffer because of the bad infrastructure. Cleanliness has always been a major issue at our health care institutions. The Toilets needs to be cleaned properly in a hospital environment to avoid the risk of infections to other patients. Filthy and uncleaned toilets should never be the acceptable norm in a hospital environment.

The senior officers of the Directorate of Health Services should look into the bad state of PHC Ferrargunj and take corrective measures for the convenience of the patients.

Surprise inspection teams should be formulated which should include the members of the general public, PRIs and empowered officers to check on the cleanliness at the hospital and especially hospital toilets.

The complaint of bad hygiene should also be dealt with seriously and stern action should be taken against those responsible.

# Frequent Call Drops & One-Way Calls Haunts Campbell Bay Residents

[READ STORY ON  
WEBSITE](#)

[Tarun Karthick](#)

Campbell Bay, 9 October  
2021

BSNL is the lone telecom service provider operating at Campbell Bay, Great Nicobar Island. The residents of Campbell Bay are facing a lot of issues because of frequent call drops and one-way calls from last month.

No one can make a proper call at Campbell Bay for many days now. The situation is very grave now and the residents are dependent on Internet-based calls for a proper conversation.

The residents are fed up with the bad service of BSNL in remote areas. The residents of other areas such as Port Blair, Car Nicobar etc. have the alternative of switching to other networks, but the residents of Campbell Bay have no other choice than to patiently wait for the services to improve.

BSNL always has some or the other problems with their mobile network at Campbell Bay all the time and the residents of Campbell Bay cannot recall a time when all the services of BSNL worked perfectly.

The calls drops and one-way calls are not limited to peak timings but people are experiencing it throughout the day even at late night and early morning hours when the call traffic on the network remains the lowest.

Submarine Cable was laid between Chennai and Andaman and Nicobar Islands to improve the telecom connectivity, but BSNL cannot even properly maintain its mobile networks to provide good quality voice call services to its consumers.

The pathetic condition of BSNL is causing a lot of inconvenience for the general public. Every month thousands of consumers of BSNL from Campbell Bay recharge their mobile phones and pay their postpaid bills for the services that they are unable to use properly.

BSNL may be a loss-making company in mainland India but it earns a good amount of profit from the Andaman and Nicobar Islands.

BSNL should buckle up and improve its services in remote Islands for the convenience of the general public. All consumers of BSNL should download the TRAI MyCALL app and report all call drops and one way calls so that TRAI can take appropriate action against BSNL.
